Holidays in the city

Sport-recreation classes at Toruń's sport fields, artistic workshops, tickets for indoor swimming pools, film shows, summer play centres, classes at playgrounds for children, tens of cultural events - it is only some of the proposals the city (the local government of Toruń) prepares with the children and teenagers that spend their holidays in the city in mind.

The action that has been run for many years is taking place under the motto "Happy and safe holidays". It is also a perfect chance to promote interesting ways of spending free time among children as well as to teach them safe behaviours in contacts with other people.

A detailed offer of summer attractions in the city is published on this website at the beginning of the holiday season - both the winter and summer holidays.
